EXPERIENCE

Brady's Bakery   **Los Angeles, CA**
Data Analyst   May 2023–January 2024
- Generated financial and inventory reports using Microsoft Excel that I presented to various stakeholders, resulting in the comprehensive tracking of $800K+ of products.
- Engineered custom programs in R translating our restaurant operating system's reports into functional datasets, establishing the basis for data analysis at the chain.
- Forecasted demand by analyzing sales data and considering external factors, resulting in optimal inventory turnover and a 17% decrease in spoilage.
- Designed and developed interactive dashboards in Tableau to visualize and communicate sales insights.

BRZY Scooters   **Los Angeles, CA**
Founder   August 2022–April 2023
- Founded and established an electric scooter rental business catering specifically to students in the vibrant Los Angeles area, bringing a new convenient and eco-friendly transportation solution to market.
- Conducted market research to identify growth opportunities, resulting in successful market expansion into different universities in the Los Angeles area.
- Implemented data tracking systems in spreadsheets for monitoring fleet utilization, maintenance, and user patterns.
- Created interactive dashboards in Tableau to track and visualize key financial and operational metrics.

US Army   **Fort Riley, KS**
Paralegal   January 2016–June 2019
- Directed unit commanders through the process of legal actions by presenting legal briefings and ensuring adherence to procedures and regulations, contributing to the correct application of military law for over 2,000 military personnel.
- Improved processing of legal actions by developing a tracker in MS Excel, resulting in a 15% decrease in processing times.
- Conducted legal research to support case preparations and legal proceedings.
